

## Dear Supporter in Honey Futures

Start: **November 11, 2018**

We appreciate your interest in our promotion,

Mead takes anywhere from 9 months to 5 years in fermentation depending on the style. The returns of what we invest in mead making takes an extended time. We are offering this promotion to advance the growth of the business.

Effectively, as a recipient of the promotion of eight (8) 750ml bottles of mead, you would be assisting in the purchase of much needed chemical free honey. Our bee losses, of which you can read about here: <https://www.capebretonpost.com/news/local/honey-of-a-beverage-in-scotch-lake-248676/>, have made it imperative that we sell our honey as honey and purchase honey for our mead.

The purchased honey will turn into the mead of your choice. Your choice gives you 8 bottles of that mead being made on your behalf at the completion of fermentation ready for the Holidays in 2019. Guaranteed, or your money refunded.

Unfortunately, you will not be able to mix and match without purchasing the promotion again at \$120.00 each (except for Valhalla at \$135.00 each and which may or may not be a longer wait time depending on stock already available).

The remaining bottles will be sold at regular price, thereby, you will be assisting in the growth and sustainability of Midgard Meadery and your name, should you choose, will be added to our farmgate store wall of supporters by way of a leather name tag.

If shipping is required when your mead is ready, an invoice would then be emailed to you in the amount corresponding to your address. Shipping ranges between \$30.00 and \$60.00 depending on address. This promotion is only open to Canadian residents and will be shipped to Canadian addresses only. Arrangements for pick up or delivery in our areas will also be made upon completion of fermentation.

Thank you for your interest in honey futures. Purchases of this promotion end November 30<sup>th</sup>, 2018.

Kind regards,

**Jennifer J. Holtom, Owner**
